Summer Sizzle

This months issue you will find it to be 'short and sweet'! Yes we have had a very busy first month this year and unfortunately only involving work! Lots of work. However we have a few trips planned for February, so stay tuned next month!

There are a few awesome new products in this months; Walex Bio-Pak Express "Tropical Breeze" scented drop ins, Thetford Aqua Rinse

Spray Bottle, and the CTEK Battery Sense Monitor. We have had a few requested for the toilet additive in a spray bottle—will surely be more convenient! The new scented Walex drops ins are already a popular type and septic safe! Most of all I am excited about the new Battery Sense Monitor. All too often we see batteries which have been neglected and not charged often enough. With this new device,

you will be able to remotely monitor your battery health via your smartphone! Never letting it get below a safe point as the device will send you an alert. Technology can be amazing!

Hope your all staying cool as Summer has caught up to us. Look forward to seeing you again soon!

Happy Travels!
Letitia Twist
