## *MERRY CHRISTMAS FROM EVERYONE AT SUNCOAST CARAVAN SERVICE!*

Christmas is just around the corner! Not long now until 2011 will be upon us. From everyone here at Suncoast Caravan Service, we wish everyone a safe, happy Christmas and New Years. And for all those travelling this Christmas period, may your journey be safe and your holiday a memorable one!

This Christmas we will be open until Thursday 23rd December 2010. From Christmas Eve (Friday 24th December 2010) to Monday 3rd January 2011 we will be closed.

We reopen on Tuesday 4th January 2011.

In this edition, we have dedicated sections for LED Bulb Replacements, and also to Wet Weather Products. So, hopefully this issue will be useful for travelers and assist with some great ideas and tips to make your next trip a safe and happy one.

Merry Christmas & Happy New Year! See you again in 2011!

## LETTER FROM THE EDITOR

Welcome to our second newsletter! Hopefully this edition will be useful for the Christmas period, plenty of products for the lovely wet weather that is apparently going to be a regular occurrence between now and the new year.

In this edition we have also dedicated a page to LED Replacement Bulbs due to popular demand. LED's are a great new energy saving product and there are now quite a large variety of bulbs available. Hope everyone enjoys this

issue, our next edition will have more pages with new and great products to kick start the new year.

Wishing everyone a Merry Christmas and Happy New Year.

Letitia Beausang  
Editor In Chief

*With an increased risk of bushfires during summer season, just a few tips to keep you and your family safe this Holiday Season*

## HOLIDAY TIPS

### GREAT IDEAS AND TIPS FROM US AND OUR READERS

***With the hot weather approaching and more of us getting out and about to enjoy summer, we need to keep in mind that with summer comes an increased risk of bushfires and possible floods. Here are some tips to keep you and your family safe inside and outside.***

- Know your camp / van park and have an escape plan
- Make sure all exit points from your van are clear at all times
- Ensure your smoke alarm works, and that your fire extinguisher is the right type and is easily accessible.
- NEVER smoke in bed and make sure all cigarettes are extinguished in ashtrays.
- Use your common sense and keep up-to-date with bushfire information, know evacuation procedures and meeting points at caravan parks and camping grounds. Ensure all electrical and gas equipment is safe and in good working order (eg no frayed electrical cords or leaky gas hoses).

# LED REPLACEMENT BULBS

## POWER SAVINGS AND BETTER LIGHTING FOR YOUR VAN

While Halogen and Incandescent bulbs have been fairly common place in Australian Caravans for many years, LED (Light Emitting Diode) Lights & Replacement bulbs are becoming ever more popular.

Little wonder really, LED's are far more energy efficient—suitable for off-road adventurers, cool to the touch—no more burnt fingers, and give you far more 'light for your buck'.

Up to the present moment, we can replace your existing halogen and incandescent bulbs with their equivalents in LED.

There are a couple of things you need to consider—the type of bulb you are replacing, the type of fitting the bulb fits into – eg pin, wedge, or bayonet. What size – both physically and Wattage is your current bulb?

An easy way to do this is to bring it in to us—we can then match up the right bulb for you.

This Led bulb replaces your T10 Wedge incandescent bulb.– commonly found in

Jayco ceiling lights.

This replacement bulb is a very bright 200 Lumens, you won't believe the difference this little bulb will make to the lighting in your van!

This is a bulb suitable for most of your reading lights, and is available in a Cool White or Warm White version.

Need an Awning light that actually lets you see? This

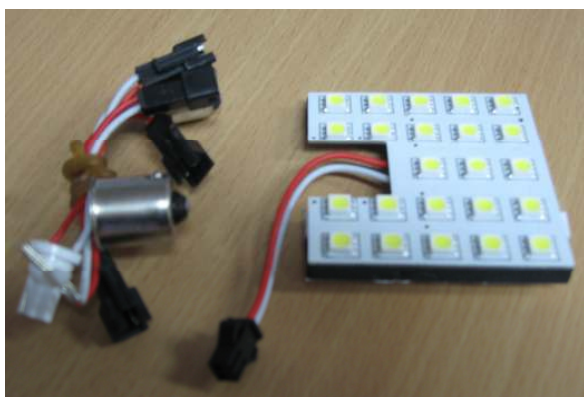

is our most popular light by far. Super bright and distributes the light downwards as well. Perfect for over the barbeque!

We also have a smaller version of this available.

There are also swivel strip lights available for a variety of uses, and we are expecting new stock and new products to arrive from our suppliers in the very near future.

Among the new products is an awning strip light you can position anywhere with either a clip system or Velcro.

To the left - the new LED Replacement with multi-fit fitting designed to be used in several different types of lights. There are wedge, bayonet and straight connections provided to allow you to replace even fluorescent bulbs with LED's. This particular style is a very bright 280 lumens. These make a huge difference to your lighting levels.

### LED Replacement Bulbs:

- Draw less battery power
- Produce more light

## FEATURED PRODUCTS

THE LATEST AND GREATEST FROM SUNCOAST

Ideal for:

Camping  
Travelling,  
BBQ's,  
All outdoor entertain-  
ment,

The list is endless!

*There are many more Christmas gift ideas available in store or through our website!*

Have you seen these nifty little bins on your travels yet?

Versatile, handy, go anywhere and no more mess! The Croc Bin can be used inside or out of your caravan, camper, motor home and is even a handy tool for campers!

The Croc Bin takes any plastic bag as you simply wrap the top of the bag around the

frame of the Croc Bin. You can either mount it on a pole or install the provided bracket in the desired spot. This makes the Croc Bin extremely portable and easy to use.

The best part is that when packing up, all you do is pop your rubbish in the rubbish collection facility of your campground/park, take the Croc Bin off its bracket if using outside and you're good to go. No

mess to contend with.

The Croc Bin is available in store or through our online shop.

## DECEMBER BARGAINS

### Waterproof Multi Purpose Courtesy Lamp

12V with 4 white LEDs, 5W output. Dimensions: approx 75mm diameter

A nice little courtesy lamp and at a nice price too. We only have 1 of these in stock and won't last at just \$20.00

### The Crocodile Peg

Yet another of those nifty ideas that make life a little easier. The Crocodile peg creates more space on your line, holds several items at once and prevents them from blowing away!

The Crocodile peg can be locked to prevent theft of your clothing and can be operated with one hand. No peg marks left on clothing and its quick and easy to use.

Normally \$6.50, this month just \$2.50 each

### Torino Towing Mirror

Do you need a safe, secure towing mirror but find the popular door mounted models won't fit in a viewable position due to your Weather shield?

The Torino fits to your vehicle door in a similar

manner to the Aussie Truck mirrors, except that there is a moveable arm that holds the mirror itself.

This movable arm allows you to position the towing mirror back inline with your cars existing mirror, which means that the weather shield does not interfere. The mirror can be positioned vertically or horizontally

We have 1 of these in stock and as it has been a display model the box is no longer pretty.

We have discounted this display mirror to \$80.00 instead of the RRP of \$120.00
